PRODUCT INFORMATION SHEET
Student Start-Stop Universal Transcription System for EMC Paradigm Publishing
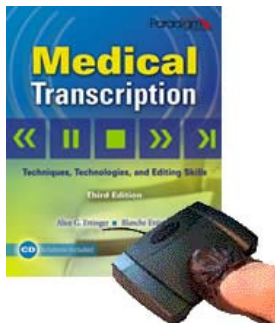

Turn your PC into a high-quality training transcription machine, using your feet to activate Play/Pause/Step Back, Step Forward, Rewind while using your favorite word processor!

The complete PC-based professional foot pedal transcriber

Student Edition of the Start Stop UNIVERSAL Transcription System for Paradigm Publishing's *Medical Transcription: Techniques, Technologies, and Editing Skills* Third Edition

NEW! STUDENT SOFTWARE VERSION 12.0 of the Start Stop UNIVERSAL Foot Pedal Transcription System with Variable Speed, built-in Job Manager, Autoplay, Bookmarks, and More!

The Student Edition of the Start Stop UNIVERSAL Transcription System has been very popular and successful with a large number of colleges in North America, and is widely used for teaching medical, business and legal transcription

Upgradeable Design: The Student Edition of the Start Stop Universal Transcription system is a state-of-the-art digital transcription system, and represents the best possible learning tool for students who plan to go into the real world of medical and legal transcription. We include free software upgrades for the life of the product.

Once students graduate, we offer attractive upgrade pricing for the professional version of the Start Stop Universal Transcription System (that is, enhanced professional productivity features such as FTP, playback of a wide variety of standard and proprietary formats. and many more).

In addition, students going into the fields of multimedia, broadcasting, business or legal transcription that require video transcription capability (DVDs, video media, web streaming) can get attractive upgrade pricing on the companion software package for the Start-Stop PowerPlay Video/DVD Transcription add-on.

Transcribe .WAV files, MP3, Truespeech .WAV, Windows Medial Audio (.WMA) and Music Audio Compact Disc (.CDA) formatted files with variable speed and bookmarking.

Windows 8™/7™/Vista™/XP™/2000™ compatible

Premium quality, built to last, super heavy duty design

System Includes:

USB Foot Pedal: 3-Pedal Super Heavy-Duty, with 8 foot cord

Licensing: The Start-Stop Student Transcription System software is included, and licensed for use on each PC that is equipped with our foot pedal assembly.

Technical Support: We provide complete support whenever you need help. In most cases, we work with your computer person for group maintenance or setup questions, since it goes faster that way.

Warranty: 1 year on pedal assembly

Minimum PC Requirements: Windows XP or higher, a sound card, Pentium Class, 1 GHZ or higher, 512 MB or more recommended.

Need Headsets?

If your students require headsets for their transcription work, we offer the Spectra PC (left) or the new FlexFone FLX-10 (right). These are available on our website at http://www.startstop.com/emcp/

Call us today and get your students started on the right track using the best equipment available for transcription. Our goal is to provide your organization with reliable, quality equipment, and back it with quality technical advice and support during, and after the sale.
