**Start-Stop® DRAG N GO ANYWHERE**

**Take Dragon wherever you go!**

©2011-2013 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

*Tools and skills to facilitate complex documentation needs are a must in today's electronic medical record environment.*

*Voice recognition has gained prominence and popularity but may not be available in all settings.*

*Institutional level licensing, implementation, integration into a wide variety of applications and organizational change require significant resources in the form of manpower, time and money.*

***What if there was a way to avoid these obstacles that allows the clinician to plug into any computer with a convenient portable device that would immediately allow accurate voice recognition without installation and have text immediately appear in any application window without any intermediate steps?***

### **NEW! START-STOP™ DRAG N GO**

**Take Dragon wherever you go!**

**New!**

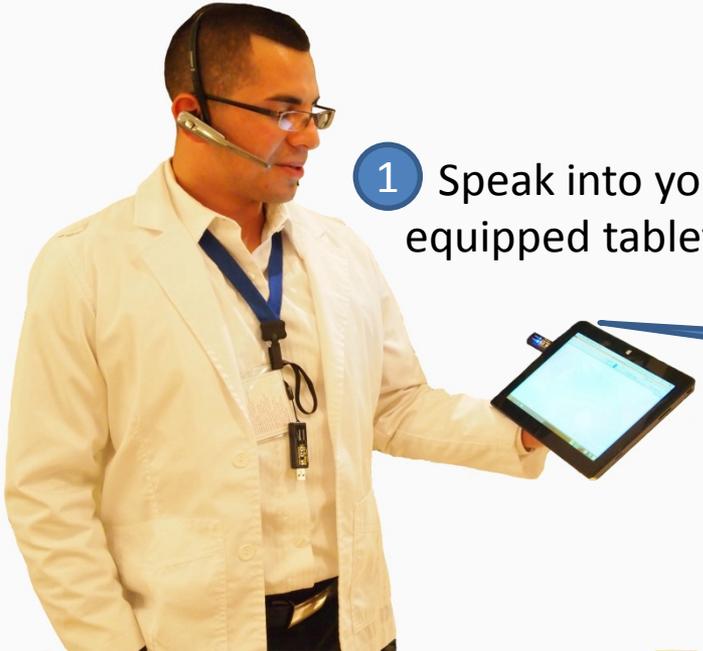

**Start-Stop® DRAG N GO ANYWHERE**

Take Dragon wherever you go!

©2011-2013 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

Walk up to any EMR system terminal, or PC... plug in the DragNGo unit, and begin dictating instantly.

1 Speak into your Dragon-equipped tablet or laptop...

Dragon Medical on your own terms...

2 ...and watch your words typed out instantly on any computer\* wherever Drag N Go is plugged in

\*Any hospital computer, office computer, clinic terminal, Windows, Citrix, thin client or Mac with an available USB port.

*(NO software required on target computer-- Drag N Go receiver looks like a standard USB Keyboard)*

**Start-Stop® DRAG N GO ANYWHERE**

**Take Dragon wherever you go!**

©2011-2013 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853

## Benefits

**1) Total Mobility and Versatility** –Dictate into any computer instead of just those equipped with Dragon.

**-Versatile: Use anywhere, anytime, Instantly:**

**Offices**

**Exam Rooms**

**Hospitals**

Walk from Room to Room , any building or facility...  
Dragon is always there with you and ready to use!

**-Fast and Accurate:**

- \*Types what you say, at up to 160 words per minute on the target machine.
- \*Full editing/review option prior to sending text to target computer.

**2) Enhanced clinician productivity**

**-Personalized and Optimized for Faster Workflow**

Provider can dictate and store a series of patients/notes on their personal device while roaming or moving around, and then quickly “dump” the appropriate note(s) into the target system...or stream dictation directly into workstation the same as a fast typist does at with a keyboard, but effortlessly and much faster.

**Start-Stop®** *DRAG N GO* ANYWHERE

Take Dragon wherever you go!

©2011-2013 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

## Benefits (cont'd)

### 2) Enhanced clinician productivity (cont'd)

#### **-Consistent, predictable, reliable results in any environment**

- The clinician's personal macros, templates, special vocabulary words, and training profiles **remain on a single, optimized device that gets better over time, on their own personal unit.**
- No need to synchronize user profiles across platforms
- Clinician is more productive, with a consistent workflow pattern on a single device.

©2011-2013 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

## Benefits

### 3) Instant Organizational-Level Savings

#### **-Instant boost to productivity**

Clinicians can start working faster, and be more productive, without waiting for an organization-wide decision or commitment

#### **-Infinitely Scalable with zero cost impact**

-Individuals can be added at will (from 1 to 10,000) with zero increase in management, integration, or overhead to the organization.

#### **-Selectively Apply Dragon Medical where needed, now.**

-No major commitment for policy-wide management.

#### **-Reduced Licensing Costs**

If Dragon Medical Practice Edition is installed on individual PCs (tablet, laptop, ultrabook), it can be individually owned and/or purchased by the clinician. Average cost: \$1599 per clinician, compared to \$2599 + mandatory maintenance for typical enterprise-wide deployments

©2011-2013 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

## Benefits (cont'd)

### 3) Instant Organizational-Level Savings (cont'd)

**-Near-Zero Cost for Platform Infrastructure Upgrades, Servers, Administration, additional personnel, and IT Overhead**

Platform Upgrade and Replacement:

Eliminates pressure to upgrade platforms, or purchase more powerful PCs for the sake of running Dragon Medical software

Server(s) for Licensing and Client Software

No servers needed, or server software, or license management

Administration Costs:

No IT administration of upgrades, licensing, log-ins or profiles

Roll-Out Pressure

None; no organization-wide major commitment necessary.

©2011-2013 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

## Benefits (cont'd)

### 4) Security, Reliability, and Safety

- **Secure** – no different than the clinician typing on a keyboard
  - Acts just like a USB keyboard (Human Interface Device) on the target platform
  - Data rate is limited to typing speeds, and is unidirectional for additional security
  - HIPAA compliant 128 bit Bluetooth LE (Low Energy) encryption of characters
  - Limited Bluetooth connection range indoors (typically 33 feet) prevents signal intercept of encrypted data.
- **Lockdown Compliant:** Works with even the tightest USB lockdown policies
- **Safe, only Keystrokes Sent:** Hardware and filtering guarantees only “legal keystrokes” (e.g. A-Z, 0-9, punctuation, spaces, tabs, keyboard commands) sent.
- **Bluetooth LE (Low Energy)** new standard means low emissions, suitable for use in sensitive medical environments
- Reliable:** Simple to use, robust wireless interface works in every environment without interference

### Specifications/Approvals

**Frequency:** Medical Bluetooth LE (Low Energy) suitable for use in sensitive medical environments

**Encryption:** 128-Bit encrypted, HIPAA Compliant

**FCC Certification:** FCC Type 15B Device, suitable for use in medical/industrial, office and home environments

**CE Approval:** Yes

**Connection Range:** 33-200 feet

**USB interface:** USB 2.0. Appears to “target” computer as an ordinary USB Plug ‘N Play compliant Keyboard (standard HID – Human Interface Device) .

**Driver Software (DragNGo):** Runs on any Windows XP, 2000, ME, Vista, Windows 7, Windows 8, or Windows 8.1 compatible computer; installs on clinician’s PC.

**Bluetooth Pairing/Setup:** Pairing is instant and automatic when units are in range of each other; units are “pre-paired” at the factory with a unique code. If one unit is lost, a replacement unit can be provided and “re-paired” to the original unit with the included utility

**Power Consumption:** Low-power, 50 ma typical

**Temperature Range:** -40 to +60 C
